Statement of Net Earnings for August Welcomed in Wall Street.

PRICES HAD BEEN DORMANT

NO UNEASINESS OVER LOSS IN CASH BY THE BANKS.

New York, Oct. 2.-The professional traders still held the stock market much to themselves today and for much of the day their devices for moving prices were as lacking in force and success as on ported gain of \$68,138 in net earnings compared with August of last year was not secured by so drastic a cut in operating costs as those in recent reports of other railroad systems in which any improveral railroad systems in which any improved as shown by Bradstreet were equal to 6,473,000 busnels. ment in net earning comparisons have occurred. Gross earnings themselves are shown to be only \$33,041 less than the preceding August, while the \$749,882 cut in operating cost amounts to less than 18 per cent. This demonstration of suspense control of the preceding are stock the price of the process of the price of t tained earning power in a stock the price of which implies a doubt of the maintenance of present dividend rates proved an incitement to an active speculative movement in it. The price mounted buoyantly and carried the rest of the list with it, at first irregularly and hesitatingly, but eased off late in the session owners and closed a shade to %c below the previous close. The strength of cash oats, which were up \(\frac{1}{2} \text{c} \), was one of the better as a whole. Good reports come from the lumber trade south and west, and a good volume of building is going to the weakness of wheat and corn and closed a shade to \(\frac{1}{2} \text{c} \), which were up \(\frac{1}{2} \text{c} \), was one of the better as a whole. Estimates of a loss in cash holdings by
the banks of \$7,000,000 for the week caused no uneasiness in view of the ease with which the October settlements have been The same indifference was shown to a suggestion that another call for a return of an installment of government deposits was an early probability in view of the declining cash balance in the government treasury.

ment in wholesale and jobbing departments, but in most leading industries there is still hesitation. Low stocks of merchandise necessitate urgency in replentishment when dealers find retail buying on a normal scale, as is the case in many sections of the country, but preparations for distant requirements proceed cautiously, although expression of confidence is ly, although expression of confidence is heard on all sides. On the whole, there is improvement in mercantile collections, yet in many lines, especially at the east, irregularity is noted. Many factories have further increased the number of hands

at work. exhibit little interest, taking Tanners only such lots as are needed for immediate business, and buyers of country hides defer operations in the expectation that fall receipts will be heavy.

Bradstreet's tomorrow will say: Cooler weather is the mainspring of the moderate improvement in retail and jobbing trade reported at most cities this week. Additional helps for the future have been numerous fairs and festivals which have enlarged distribution locally ower.

Experience, Equipment

ence, knowledge, equipment and an honest desire to render a dollar's worth of service for a dollar.

The 20th century abounds in discoveries of great worth, but in none of the sciences has there been greater progress than in the line of medicine and surgery. It has made it possible to stamp out yellow fever, and has taken the sting from smallpox. We do not say now that a bullet is probably lodged in a certain part of the body.

The way we maintain our reputation and sustain our business is by a judicious blending of skill, experi-

With the X-ray and locate it definitely. In diphtheria antitoxine has displaced hopelessness, and abstract results are assured. With co caine a finger may be amputated while the patient looks but does not feel.

THE MAN WHO NEGLECTS

His health and has symptoms patched up until he finds it convenient to obtain a cure is of the class of man who patches his wagon with old wire to save a small blacksmith bill, or the fellow who spends 20 minutes every day for a year taking down and laying up a fence because it would require an hour's time and a dollar's worth of timber to make a convenient gate. Our price for a cure of any ailment in our line is cheap, but not too cheap. When you buy meat too cheap you smell what you have saved when it is cooking. We quote a few of cur prices-but our charges in all cases are very moderate, and no honest man is too poor to take
